

ABSTRACT OF THE DISCLOSURE

5 A monitoring module reports registration  
certification to an accounting server from a  
terminal device when contents determined as a target  
to be charged for are accessed in the terminal  
device which is previously registered in the  
accounting server. The accounting server confirms  
properlity of the registration certification in the  
accounting server, and performs fee charging. The  
10 application program, when the properlity of the  
registration certification is confirmed, reports  
permission of access to the contents from the  
accounting server to the terminal device, and  
enabling the contents to be accessed in the terminal  
15 device.
